Introduction

Detail-oriented Computer Science graduate with strong knowledge of HTML, XML fundamentals, CSS, JavaScript, SQL, and MS Office. Quick learner with excellent analytical and problem-solving skills. Eager to begin a career working with XML, HTML, and structured data while contributing to a collaborative team.

Skills

- Web Development: HTML, CSS, JavaScript
- Tools & Frameworks: VS Code, Bootstrap.
- Databases: MySQL, SQL.
- Other skills: XML , MS Office (basic)
- soft skills: Attention to detail, problem solving, communication , teamwork

Education

- Bachelor of Science (Computer Science) - 8.93 cgpa
NES Ratnam College, Mumbai
- HSC (Science) - 61 %
Navjeevan junior college , mumbai

Projects

EduQuest | Web-Based Gamified Learning Platform:-

- Tech Stack: JavaScript (ES6+), HTML5, CSS3, Open Trivia REST API, LocalStorage.
- API Integration: Engineered an asynchronous data pipeline using the Fetch API to dynamically retrieve and parse JSON data from the Open Trivia Database, supporting different categories.
- State Management: Developed a custom game engine to manage real-time "Integrity" (HP) and scoring states, ensuring a reactive user interface without external frameworks.
- Data Persistence: Implemented LocalStorage protocols to store and retrieve user high scores, maintaining data across browser sessions with zero server-side overhead.

Job Portal Website:-

- Tech Stack: JavaScript (ES6+), HTML5, CSS3
- Developed a responsive job portal web application with a modern user interface for browsing job opportunities.
- Implemented dynamic job listing rendering using JavaScript arrays and DOM manipulation.
- Built search and filtering functionality to allow users to quickly find relevant jobs.
- Created a fully responsive layout ensuring compatibility across desktop and mobile devices.

Extra-Curricular Activities

Participant – 100m race , relay race ,St Anthonys school

Hobbies

Music, cricket, learning new technologies

Languages

English , Hindi , Marathi
